PROFILE

IT analyst with software-development training, current cloud systems coursework, and high-volume operations experience. Builds practical automation, documented infrastructure, and dependable data workflows with validation, tests, and safe defaults.

CORE CAPABILITIES

Systems & cloud AWS foundations · Windows · Active Directory · Linux · Hyper-V · Docker	Automation & data PowerShell · Python · SQL · REST APIs · Operational reporting	Engineering practice TypeScript · Next.js · Testing · GitHub Actions · Documentation
---	---	--

SELECTED PROJECTS

- Active Directory Home Lab** · Source
Scripted and documented a three-VM Hyper-V domain lab with Server 2022, two Windows 11 clients, role-based access, eight Group Policies, 50 test accounts, event forwarding, backup/recovery, Pester tests, and six operations runbooks.
- IT Helpdesk Automation Toolkit** · Source
Created four PowerShell support workflows for bulk provisioning, password operations, health checks, and software inventory with dry-run support, Pester tests, and CSV, JSON, and HTML reports.
- eFootball League Dashboard** · Live · Source
Built a Next.js dashboard with public read-only standings, session-gated administration, validated result entry, automatic home-and-away fixtures, and a recent-activity audit log.

EXPERIENCE

- Order Picker — Fulfillment Operations** · GEODIS · Oshawa, ON Nov 2025 — Present
- Track inventory and complete time-sensitive orders while following documented fulfillment and safety procedures.
 - Investigate discrepancies with cross-functional teams, escalate blockers, and maintain accurate shift handoffs.
- Fulfillment Center Associate** · Amazon · Ontario Jun 2023 — Oct 2025
- Worked against daily productivity and quality targets in a high-volume environment.
 - Adapted to rotating processes and coordinated across shifts to resolve workflow interruptions.
